PRAGMATIC CHANGE MANAGEMENT THAT DELIVERS SUSTAINABLE RESULTS  
FROM “CHANGE WORRIER” TO “CHANGE WARRIOR”

“Its not the strongest species that survive, nor the most intelligent, but the most responsive to change”

Charles Darwin

We can learn from nature by observing the chameleon ...

## THE CHAMELEON IS THE NATURAL “MASTER OF CHANGE”.

**It changes its color as soon as there is a change in the environment.**

In order to do so, it needs sensors for recognizing even minor changes. But it also requires the ability to adapt its color immediately - while basically always staying itself.

**Just like your organization: a passion for continuous change and success!**

Since 1982 Change International has been supporting change processes in many areas and industries, delivering our activities across all five continents. **To Change is to SAVE®.**

## THIS IS WHERE THE CHAMELEON IS IN ITS ELEMENT.

**The chameleon passionately drives for results.** It knows exactly what keeps managers in charge of change projects up at night and never lets up until the defined strategies are finally working in practice.

In this context it speeds up changes with a pragmatic view for the essential while maintaining all flexibility, staying focused on the objectives.

**Helping you to achieve your goals.**
